OUTDOOR  
COLLECTION

## BERNHARDT | design + **PLANK**

Bernhardt Design + Plank is a long-term partnership between two design focused family owned companies, one in America, the other in Italy, each with an aesthetic and heritage all their own. They share common values in the most important areas: the pursuit of quality, a deep appreciation for the value of design, and a commitment to innovation. Both brands have adapted to an ever-changing market through partnerships with the best designers of this era.

Bernhardt Design + Plank is the exclusive distributor for Plank's award- winning products in North America. An extensive Fast Track program offers two-week shipment on a wide array of seating and tables. In addition to products for interior spaces, Bernhardt Design + Plank features a broad collection of outdoor furniture.

The Plank collection is the fruit of intense research, where an innovative approach to form as well as technology underpins its design philosophy. Relations and close collaboration with designers are a key feature of our method, where frequent meetings and dialogue lead to the identification of a final product.

Plank Headquarters, Ora, Italy

A passion for research transforms Plank products from ideas and intuitions into furniture. When the highest quality of form is combined with that of technology.

#### Outdoor collection

Plank is pleased to present a collection of lifestyle images showing its contemporary furniture in outdoor use. The images offer inspiration to designers and other industry professionals, but also for the users, seeking outstanding outdoor furniture for their latest projects. Displaying the products in context emphasizes the functional features that make them so well-suited to outdoor use, such as the permeable surface of the MYTO chair that lets water drain through it, and MIURA table's folding mechanism that allows multiple tables to stack when not in use.
